

BIG HUGE LABS

collaborate | create | integrate

bighugelabs.com

Big Huge Labs is a wonderful website for

both teachers and students. It has a plethora of generators that allow you to create products using pictures. This website is full of great tools that can be easily integrated into an subject area, grades pK-12. The possibilities are endless! Let your students create!

Integration Ideas

- Create a Movie poster for book you are reading, or an event that you are studying in Social Studies.
- Have students use Motivator tool with their vocabulary words
- Make a Magazine cover for a person/place/thing you are studying.
- Use the Badge Maker in social studies class to create a badge for a prominent person you are studying

Corps of Discovery

Meriwether Lewis

Born August 18, 1774
Died October 12, 1809

Meriwether teamed up with William Clark to travel and explore the Louisiana Purchase. Meriwether was a brilliant leader, and successfully led his team to the Pacific Ocean.

Official Member

Task Challenge

1. Open your web browser and go to bighugelabs.com.
2. Choose the “Badge Maker” tool.
3. Take a second to exam the options you have when creating with this tool: Image upload, Header, Footer, Name, Text, etc.
4. Think of a character, historical person or object that you teach about in your classroom
5. Begin creating a Badge for the character, person or object you chose.

Pro Tips

- When saving photo of character from Google images to upload to your Badge, do the following: Search for person>tap on images>tap on “search tools”>tap on Usage Rights and choose “labeled for reuse”
- When done adding all of your information, tap on the “Create” button. If using iPad, take a screenshot and then crop the photo using editing tools in Camera app.
