

SHOWME

collaborate | create | integrate

ShowMe

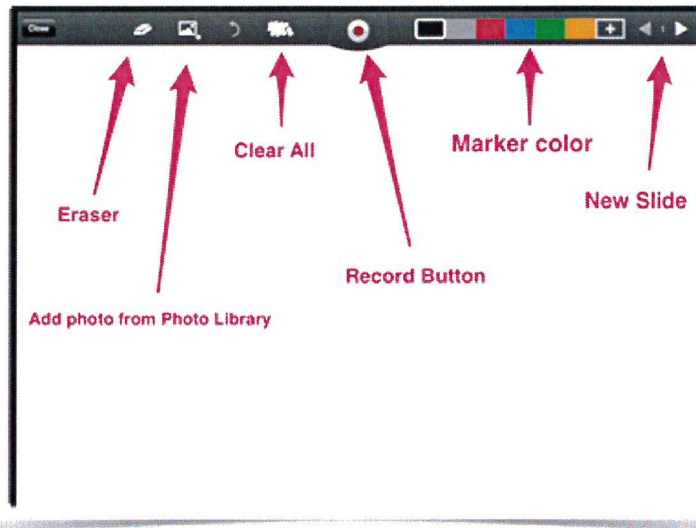

ShowMe is the easiest way to create and share lessons on the iPad. You can

create your own ShowMe or search for thousands of ShowMes that have already been created by other teachers. Best of all, the app is free!

Integration Ideas

- Flipping the Classroom
- Learning by teaching. Have students create a ShowMe about a topic or concept they are learning
- Formative Assessment
- Demonstration
- Vocabulary
- Math Concepts
- Tutorials
- Use in Music to teach notes on a musical staff, notes on a keyboard or a tutorial on how to read music

Task Challenge

1. Go and take a picture of the following places: front of school, main office, Principal's office, panoramic shot of your room, selfie of you.
2. Open ShowMe app and tap on "Signup or Login."
3. Once logged in, tap on "Create" (blue button, upper right hand corner).
4. Create five slides with the five different pictures you just took. Tap on the triangle in the upper right hand corner to add a new slide to your ShowMe.
5. Label each slide (Front of School, etc.) using the Marker tool. Use a different color for each slide.
6. Starting at the first slide, tap on the record button and record your voice describing each slide. Pause recording after each slide OR tap the triangle to advance to the next slide while you are recording. Tap on the pause button when done recording.
7. Tap on "Save ShowMe" and ShowMe will now autoplay. Tap on "Save" when done previewing.
8. Name your ShowMe "My School" and tap on "Next."
9. Choose "Other" and type "testing" in the search box, then tap on "Done adding topics."
10. Once ShowMe is published, tap on gear icon to Share your ShowMe.
